Massachusetts Association of Criminal Defense Lawyers

Calling all “New” Lawyers!!!

Are you a lawyer who has been practicing for less than 4 years?

Would you like an experienced MACDL member to help you navigate the criminal practice in Massachusetts?

Well you are in luck! MACDL has created a new lawyer partnership program where members with fewer than four years of experience will be paired up with an experienced member who will serve as a welcoming contact. The program expects to complement the long standing tradition of networking and openness, which is a hallmark of our community. Your “partner” will not supervise your cases but instead will provide you with general advice direction and support. We will do our best to pair lawyers up by their county of practice.

If you are participating please email, Shira Diner at sdiner@publiccounsel.net . Please indicate what county you practice in and if you do state or federal work.
